Note: Q1 = first quarter (January, February, March), Q2 = second quarter, etc.

The Bureau of Statistics first undertook the Yukon Real Estate Survey in 1977. The survey is a census of all real estate transactions occurring anywhere in the Yukon, with the exception of 'not-at-arm's-length' transactions, which are excluded. ('Not-at-arm's-length' transactions are those that do not reflect open market values.) All single and multiple-residential property transactions, as well as commercial and industrial property sales, are included. The survey is divided into four parts: (1) Value of real estate transactions; (2) Type of real estate transactions in Whitehorse; (3) Value, number and average price of house sales in Whitehorse; and (4) Average house prices in Whitehorse over the past few years.

[1]The 'Family Lots' category does not include the majority of lots purchased by contractors. For further explanation, contact the Yukon Bureau of Statistics.
